## SALZBURG NIGHT TOUR

**Get a breathtaking view of Salzburg's top attractions – up close, as well as from more than 1200 meters' elevation atop the Gaisberg summit.**

As night falls, we will pass numerous illuminated buildings as we head toward the street-level station of the Mönchsberg Lift. This whisks you up to the overlook on Mönchsberg in only 30 seconds. There, you are presented with an indescribable view of Salzburg's world-famous postcard scenery by night. After a stop at Schloss Leopoldskron, the tour then heads up to the summit of Gaisberg. There, an incomparable nighttime vista of the sparkling city of Salzburg awaits, with the backdrop of the gigantic Bavarian Alps rising behind it.
